INR/DDC

Department of State

SUBJECT: Department Authorization for FY 1973

On 28 February 1972 you requested guidance on responses to possible Congressional questions. This guidance, we understand, is for Acting Assistant Secretary Brown's use during his appearance before your Committee on the Department authorization for FY 1973. We contacted as you suggested. We understand from that the Department is requesting guidance on how to respond to questions, if they arise, about the size of the Embassy and the numbers of people from respective agencies within the Embassy.

If questions arise which seek to identify other agencies represented in the Embassy we concur in Ambassador Brown including CIA as being represented. We do not concur in his discussing numbers of CIA personnel. If he is pressed on this question he should respond that these questions should be directed to the Director of Central Intelligence who will reply to the appropriate committee.

FOR THE DEPUTY DIRECTOR FOR PLANS:
